Philadelphia, Pa., Sept. 13.-The Cardinals and Quakers split even on a double-header to-day. Donovan's men captured the first by the score of 8 to 7 and lost the second -1 to 0. In the first game Sudhoff was pitted against White, and the little man had a shade the better of the argument, although a hit by Hallman in the ninth, with the bases full, would have entirely changed the history of the game. But Hallman's best was a foul to Nichols. In the second contest Powell and Town-send served up the benders, and both had perfect control, each side making three hits.

The game was called at the end of the seventh inning on account of darkness. In the first game White was hit hard, sixteen first game White was hit hard, sixteen smashes being recorded against him. Sudhoff was touched up for eleven hits, five of which were made in the last round.

Wallace played a great game at short, and his two misplays were immediately atoned for in each instance by fine plays, releasing him of whatever damage they at the time threatened. Big Bill Schriver used his stick with a vengeance, three doubles and a single out of five times up being his record for the day. Burkett got in two doubles and a single, Padden a double and two singles and Kruger three singles. For the Phillies, Flick got a triple and two singles and Delchanty a double and a single.

singles and Delchanty a double and a single.

St. Louis opened operations in the first game by scoring three times. Burkett doubled, thanks to Orth's slow fielding, and Padden's hit was also good for two bases, due to the further kindness of Orth. Cross threw Wallace out at first, but missed Donovan's grounder, and Padden scored. Bill Schriver singled, as did Kruger, and Filck fumbled the ball long enough to allow Patsy to score. Nichols forced Kruger at second. St. Louis got one in the fourth, the fifth and the sixth.

In the fourth Kruger singled, took second on an out and scored on Burkett's two-base swat. In the fifth Wallace got in the road of one of White's banders, stole second and scored on Schriver's double. Burkett drove in another run in the sixth, with a two-bager after Nichols bad singled and Sudhoff had sacrificed. McFarland's error gave the Cardinals another in the eighth, and Padden's single and steal and Schriver's two-bagger, No. 3, gave the Cardinals their last score, which was sorely neded before the game was over.

The Ouskers got two in their half of the

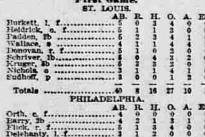

last score, which was sorely needed before the game was over.

The Quakers got two in their half of the third. Kruiger made a three-base wild throw of White's easy hit. Orth's out to Burkett scored White. Barry then walked, took second on an out, and scored on Delehanty's slashing two-sacker to right. Another pair of tallies came along in the seventh. Cross singled and White beat out an infield hit. Orth walked, filling the sacks. Barry

hit. Orth walked, filling the sacks. Barry forced Orth, Cross scoring. White scored on Filek's single.

The hopes of the spectators were keyed to a high pitch in the ninth. Wallace killed one of White's grounders, and Orth filed to Burkett. Barry then doubled and scored on Filek's triple. Singles by Delehanty and McFarland and Jennings's double scored Filek and Delehanty and left the bases full, but Hallman's best was an easy one for but Hallman's best was an easy one for Nichols to pull in.

SECOND GAME.

The second game was a pitcher's battle between the veteran. Powell, and young Townsend, with honors about even. Both pitchers allowed but three hits. The game was won in the seventh, Delehanty hitting for two bases, going to third on Douglass's neat sacrifice, and scoring on Jennings's fly to Donovan. Darkness then made further playing impossible. There were no fielding features to the game. Attendance, 4,163. The scores:

HOMEWARD BOUND.

Cardinals Quit Philadelphia and

Cardinals Quit Philadelphia and Head Toward Chleago.

After closing the Eastern campaign with the double-header at Philadelphia yesterday, the Donovanites bade farewell to Quakertown last night and are now on their way West. To-day will be spent in travel, and to-morrow the team makes its farewell appearance in Chicago in a lone game with Doyle and his veterans, who left Brooklyn last night, after losing a double argument to the Hanionites. The Sunday game at Chicago will be the last played by the local team on foreign grounds, with the exception of the closing games of the season at Chicanati, October 5 and 6. While they had proved easy victims for Boston and New York, the Cardinals took an encouraging brace at Philadelphia, and succeeded in negotiating an even break with the Quakersthe best showing made in any of the series with Eastern division teams. Monday will find the local aggregation home again, and three days of rest and practice will intervene before the Hanlonites come to League three days of rest and practice will inter-rene before the Hanloultes come to League

vene before the Hanionites come to League Park.

The new twirler, Joyce, will have a chance for some good workouts and should be ready to take his turn without nervousness by the time the Brooklyn aggregation gets to town. The team is still suffering the loss of Dan McGann, but it is probable that McGann may patch up his differences with the management and finish out the season with the local aggregation. McGann, it is said, will not join any other team this year, as the end of the season is so near at hand that he would get but little chance to limber up again before the finish. It is, therefore, likely that Donovan and McGann will have some sort of understanding whereby Dan will resume his position at the first corner. He certainly is needed.

Unofficial advices from Washington say that McGann has been expelled from the National League by Nick Young, though for what reason is not made clear. McGann's refusal to accompany the Cardinals East can hardly be construed into an offense of such enormous proportions as to call for his expulsion, or even suspension. A player may quit one club without endangering himself, but, while his services are lost to that club, he is not at liberty to sign with another club of the same league without first having been released from his obligations by the club which he deserts. Manager Heilbroner is reported to have announced that McGann has been given a dishonorable discharge, but McGann says he has not received any such notification from the doughty secretary.

If the story from Washington to the effect that Ai Maul has been signed for next year by New York is true, then Maul is entitled to the reputation of the prince of "con" men in the baseball world. It would seem that Freedman has bought a gold brick if he retains Maul. The latter was seem that Freedman has bought a gold brick if he retains Maul. The latter was a valuable man in his day, but for the last few years he has been buffeted from one club to another, and at no time has he shown the consistent form that would argue that he was anything but "all out." Frank P. Murphy is also credited with having signed with the Giants. Murphy is the fast infielder who was seen here with Boston. He was claimed later by Cincinnati, but was transferred to New York. Later he was sent back to an Eastern League team, which, Nick Young decided, was entitled to his services. The Brooklyn management has taken steps to retain McGann, the "upstate" pitcher who has worked but little for Hanlon this season. John A. Ward and William J. ("Wee Willie") Prout, outfielder and infielder of the fast Washington Courthouse, O., team, will be tried out by Brooklyn next year, and have already signed contracts.

Donovan Signs New Pitcher.

Manager Donovan of the St. Louis club announced to The Republic correspondent last night at Philadelphia that the St. Louis management has signed Joyce, a young southpaw who has been twirling this season for the Montreal team of the Eastern League. The Eastern League season is drawing to an end, and Joyce, who, by the way, is no relation to "Scrappy Bill," will join the Cardinals after the finish. He will not accompany the Cardinals to Chicago, but has

Dr. Barciay Permanently Cures Cataracts Without Using Knife

GATARACTS.—You have a cataract when your vision is blurred, when you have dim light than in a bright light, when you see as through a fog or smoke, when you see better sideways than straight forward, when a small light seems expanded into a large fame or has a halo around it, when objects like the moon seem to be multiplied—these are all positive signs of cataract, which will soon make you totally blind. Some oculists attempt to remove cataract by cutting with the knife, a most dangerous operation and apt to destroy the eye.

I remove cataract by my "Essential Method" by "disintegration and diffusion." I treat cataract during all stages of their formation. The less developed the quicker the cure. I do not use a surgeon's knife. The treatment is painless, the cure positive and permanent. I do not absorb cataracts by using powerful chemicals, but my method is to remove the cataract by the use of mild medicines that can in no way injure the delicate organs of the eye. If you have the slightest indication of cataract, or if your eyes are causing you any inconvenience, do not hesitate to call on me. I will give you my personal attention, thoroughly examine your eyes, I will tell you exactly what is the matter with them, and let you know exactly how much it will cost to cure them. This consultation and examination will not cost you a cent.

SOON TO BE SECURED.

President Francis is the authority for this statement, which was made yesterday. At the same time he made public the negotiations the Executive Committee is car-rying on with a man of national promi-nence for the post of resident representative of the Exposition in Paris. The name of this person, President Francis said, he was not ready to disclose for a day or so, but his appointment has been approved by

the Executive Committee.

Chief Architect Taylor also said that he estimated that 200 additional acres are needed for the Exposition site, and he has recommended the acquirement of the ground. President Francis confirmed the statement and said that steps are being taken to secure the needed territory. Architect Taylor said that if necessary he can build the Fair on the park site, but it is deemed wise to have sufficient acreage for

The problem of apportioning space on the Exposition grounds has been placed by th Executive Committee in the hands of an expert in New York City, whose experience with exposition work covers many years. Committee to add another co-ordinate ex-ecutive head to the builders of the Fair

President Francis said: "We have found that the question of concessions and admissions is a part of the work involving immense labor. It has been deemed advisable to create this post, to be co-ordinate with that of the Director of Works, or, as it may be termed later, Director of Construction and Maintenance the Director of Construction and Maintenance, the Director of Exhibits and the Commissioner General. These titles are only tentative, and may be changed. The Director of Construction and Maintenance will do just what his title would indicate. A Director of Exhibits has complete control of the exhibits. The Commissioner General would have directly with the representation of the deal directly with the representation of the Fair in various parts of the world, and the Fair in various parts of the world, and the Director of Concessions and Admissions would have his time taken up with those details. These men will form a sort of cabinet to the President of the Exposition."

TENDER OF SITE IS FORMALLY ACCEPTED. President Francis addressed a formal ommunication to Mayor Wells yesterday, in which he informed that official of the action of the Exposition Company in agreeing to accept Forest Park site. The Mayor was told that the Exposition Company cannot accept the proposition relative to a bond of \$100,000 without a vote of the Exposition Directors, which is necessary to make it legally binding. The difficulty in having this matter adjusted at once lies in the fact that a question of this character requires the majority vote of the Board of Directors, and most of the members are out of the city just now, so the formality has been deferred until a later date. The delay does not interfere with the work of Director Taylor, who has been assured by President Hiram Phillips of the Board of Public Improvements that the Exposition people are practically in charge of the site at this time.

A complication has arisen with reference to the title for the World's Fair site in the to the title for the World's Fair site in the boating privilege in Forest Park. This concession from the city is held by Philip Assemmacher under a lease for a term of five years from April 19, 1897. The contract, therefore, does not expire until April 19, 1802. The Exposition people hope to adjust this possible tangle before they begin erecting the fence around the site in which Assemmacher's privilege lies. State Senator Charles Schweickardt, who halds the refreshment privilege in the park, has waived Hebrew synagogue at Thirteenth and Carr streets yesterday afternoon caused \$150 damage to the building and \$100 damage to the furniture. The loss is covered by insurance. Crossed electric wires are believed to have caused the biase.

I Limit My Practice to VARICOCELE

And All Diseases of Men!

Scrotal Varicoccie has been described as a creeping disease. It silently steals upon its victim like a thief at night, and before he is really aware of its presence great and damaging inroads are made upon his constitution. The veins surrounding the spermatic cord become enlarged and engorged with impure blood and diseased tissue. At times this condition may be accompanied with a dull, heavy, dragging pain in the small of the back, extending down into the parts, low spirite, weakness of the body and brain, nervous debility, partial or complete loss of sexual power, and not infrequently decline of the general health. All these disagreeable symptoms soon disappear completely and forever under my Varicoccie cure, which is safe, painless and hiodeless and therefore free from surgery in any form. Every clot of stagnant blood and every fiber of diseased tissue are driven from the affected parts, normal circulation is re-established throughout the pelvic region, the weakened organs become strong again, and sturdy manhood is restored.

Laiso cure to stay cured STRICTURE, SPECIFIC BLOOD POISON, NERVO-SEXU-

I also cure to stay cured STRICTURE, SPECIFIC BLOOD POISON, NERVO-SEXU-AL DEBILITY and all reflex complications and associate diseases and weaknesses of men. To these maindles alone I have earnestly devoted twenty-three of the best years of my life. I make no charge for private counsel and give to each patient a legal contract in writing, backed by abundant capital, to hold for my promise. Is it not worth your while to investigate a cure that has made life anew to multiludes of men?

If you cannot call, write your trouble fully. I have the most perfect system of treatment known to medical science.

ADMIRAL RAMSAY SUCCEEDS HOWISON.

Former Chief of Navigation Bureau Selected as Member of Schley Court.

SESSION CALLED FOR MONDAY.

Two Members May Continue the Inquiry, if Admiral Ramsay Is Not Acceptable to Rear Admiral Schley.

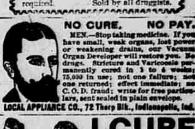

Washington, Sept. 13.-Admiral Dewey informed Admiral Schley by telephone to-day that the Court of Inquiry will resume its sessions at 11 o'clock on Monday morning next. The third member of the court, Admiral Ramsay, will fill the place vacated

by Rear Admiral Howison. miral Dewey's order assembling the court on Monday next is contingent upon the President's condition.

Admiral Ramsey's Record. Admiral Ramsay is the immediate predecessor of Admiral Crowninshield as chief of the Navigation Bureau of the Navy Department. He was appointed from Penn-sylvania to the Naval Academy as mid-ehipman in 1850, and his record in the Civil War is full of engagements with the enemy on the Lower Mississippi and Yazoo rivers and around Fort Fisher and Richmond on the Atlantic Coast. He is 66 years old.

DR. BEN TOMLIN,

It is impossible now to predict as to his acceptability to Admiral Schley as a member of the court. The Admiral did not care to commit himself to-day, but referred all inquirers to his counsel, and, as the latter are absent from Washington their views cannot be obtained here.

Third Member Not Imperative.

Save for the possibility of a conflict of views between Admiral Dewey and Rear Admiral Benham when the time comes for the court to render its final opinion, the counsel of Admiral Schley will be content to let the court stand with just two members. The law specifies that there shall be
